WORDS OF ENCOURAGEMENT

“

Tim and Dan:

We are so close. The final push is here. We've got more than 80% of patients needed for the prospective cohort, and almost 90% for the retrospective cohort. Now's the time to get it keep going. Every patient in the retrospective group contributes to building a reliable pathway for infection, and those in the prospective group helps to prove that this pathway will work in real life. It is going to be awesome. Thank you.

Nick, PIC Bone's Data Manager:

Please continue the excellent work completing results forms and answering queries. We have been checking that we have all the data we need to understand the pathway to diagnosis and are pleased to say the quality is high. Thank you to all staff working on the databases for their hard work.

”

SITE NEWS

Belfast are almost ready to open and if they do, we will be able to call PIC Bone a **UK-wide study** as we opened Aberdeen, our first Scottish site, last month!

NEWSBITES:

STUDY EXTENSION

We are still awaiting to hear the outcome of the study extension request that we submitted in June.

Please continue to recruit as normal whilst the funder finalises the extension.

RETROSPECTIVE DATA ENTRY

Has your site finished retrospective record entry?

If yes, please email the PIC Bone inbox to let us know. Otherwise, please keep adding these records to the database - we still have over **600 records** to go!

STAY IN TOUCH! WITH WHATSAPP

If you would like to join our WhatsApp Community Group, please scan the QR below. This is for direct communication between sites and the study team, troubleshooting queries on the go, and receiving useful updates.

HELPFUL REMINDERS :

1. If a potential participant no longer wishes to take part in the study, please do not change the patient consent agreement from 'yes' to 'no' on the screening form. Instead, please email the PIC Bone inbox and we will mark this on the database.

2. If a team member would like to change their duties on the electronic delegation log, please do not update the existing entry on REDCap for that individual. We ask you to create a new entry and then get this signed off by your site's PI!

Recruitment Updates - Study Charts:

Prospective Study Recruitment as of 25 July 2024

Retrospective Study Recruitment as of 25 July 2024
